MARKUS BRACHMANN, AIRBUS DEFENCE AND SPACE,
IT SECURITY MANAGER FOR THE COLUMBUS MODULE ON THE ISS

ConSecur

[security and consulting]

SIEM and Managed SIEM for the Columbus Module of the ISS

Airbus Defence and Space is within the scope of operations of the International Space Station from the European Space agency been commissioned with the implementation of a security incident and event management (SIEM).

The aim was to improve the IT infrastructure of the Columbus module of the international space station ISS and the associated ground segment, which is different across Europe national space agencies, user operations support Center and European partners access to monitor.

ConSecur GmbH has the SIEM system for the ISS designed and implemented ISS program that distinguishes autho-

rized access from anomalies. After the analysts establish successful implementation ConSecur GmbH maintains the security level with managed SIEM at the highest level.

**ELKE SCHOMAKERS –
INTERNAL SALES**

Elke Schomakers coordinates the appointments for our managed SIEM call by telephone. Elke will ask you when it suits you best.

**JENS WÜBKER –
CEO**

Jens Wübker initiates all new projects at ConSecur GmbH. Jens will be one of your conversation partners.

**DORIS POPPENBORG –
SALES**

Doris Poppenborg accompanies our projects from the first conversation. Doris will lead the managed SIEM call together with Jens.

Managed-SIEM-Call – let`s get to know each other!

In the Managed-SIEM-Call we get to know each other. We talk about your existing infrastructure and the measures you have taken for information security.

What information security topics do you have on your agenda? What questions are you currently dealing with? How

can we support you with your expertise? We conduct the managed SIEM call in a video conference.

We will send you the invitation by email after telephone conversation.

AIRBUS

ConSecur GmbH

In our digital age, information is a very high corporate value and we are committed to its confidentiality, availability and authenticity. ConSecur designs and operates IT security solutions for companies and organizations that are tailored to existing IT infrastructures and help us to reach the next level of information security.

Conception, construction and operation are our strengths. If desired, we operate IT security solutions permanently in our Cyber Defense Center 24/7 [Managed SIEM].

The aim of our work is to only grant authorized persons access to information. To protect information from attacks by unauthorized persons. The result is an IT infrastructure at the highest level of security.
