

## ConSecur GmbH

In our digital age, information is a very high corporate value and we are committed to its confidentiality, availability and authenticity. ConSecur designs and operates IT security solutions for companies and organizations that are tailored to existing IT infrastructures and help us to reach the next level of information security.

Conception, construction and operation are our strengths. If desired, we operate IT security solutions permanently in our Cyber Defense Center 24/7 [ Managed SIEM].

The aim of our work is to only grant authorized persons access to information. To protect information from attacks by unauthorized persons. The result is an IT infrastructure at the highest level of security.

**ConSecur – next level information security**

»SIEM-project planning within 15 days. How it works? Let us discuss!«

## How could SIEM work in my IT infrastructure?

**We will show you!**

We achieve information security when people and technology work together.

That is why we at ConSecur GmbH prefer SIEM technologies in combination with our SIEM experts, who take over the security monitoring in our CDC.

Within 15 days we will provide you with a cyber defense center including a SIEM tool as a Proof of Concept. The requirements of this Proof of Concept we will define together previously.

As part of the PoC, we look after the individual use cases (risk scenarios) that need to be monitored on site and show the range of functions of the SIEM tool using specific events from the connected log sources.

In the Proof of Concept you will be able to see and experience how our security analysts check your IT infrastructure for security incidents and carry out active security incident management.

Together we form a powerful alliance with your IT department to identify security threats and initiate countermeasures in a timely manner.

We demonstrate this interaction between people and technology to you personally.

**Precisely distinguish security incidents from permitted access**

**ELKE SCHOMAKERS –  
VERTRIEBSINNENDIENST**

*Elke Schomakers koordiniert telefonisch die Termine für unser Beratungsgespräch.*

**JENS WÜBKER –  
VERTRIEBSLEITUNG**

*Jens Wübker initiiert alle neuen Projekte bei uns. Jens wird einer Ihrer Gesprächspartner beim Beratungsgespräch sein.*

**DORIS POPPENBORG –  
VERTRIEB**

*Doris Poppenborg begleitet unsere Projekte vom ersten Gespräch an. Doris wird einer Ihrer Gesprächspartner beim Beratungsgespräch sein.*
